

PRESS RELEASE

CIFA Carbotech: two new arrivals

CIFA goes on in widening the CARBOTECH range, truck mounted pumps that thanks to new and performing materials reach longer booms respecting weight limits. Two more models will be introduced to the public at Intermat Paris 2015: K53H and K60H.

The CARBOTECH family thus grows from four to six models.

K53H and K60H can be mounted on 4 and 5 axles trucks.

If mounted on 4 axles, the limit is 42 and 44 ton respectively.

For both models the weight limit is widely respected so to allow users to load accessories, water, diesel and so on without breaching circulation rules and/or special permits and/or technical limits of vehicles.

Assembly on 5 axles allows an optimal load distribution on single axles so to allow circulation also in Countries where regulations are stricter.

K53H has a 53 m boom made of 5 sections (the final two in carbon fiber) with RZ folding system.

K60H has a 60 m boom made of 6 sections (the final two in carbon fiber) with RRZ folding system.

Both of them mount the new and performing HP1808ECX closed circuit pumping unit with maximum capacity of 180m³/h, 83 bar max pressure, 260 mm concrete cylinders that allow to reduce to 27 the number of maximum cycles per minute. A low number of cycles allows to reduce wear and therefore costs related to machine functioning.

The standard set up for these models, as well as for the entire CARBOTECH range, is particularly rich in accessories: beside the advanced management system via SMARTRONIC display, with stability and diagnostic control, it stands out for double thickness pipes CIFA Long Life Pipes, stabilization studied and designed according to the boom length.

Come to visit us at our booth 7H001!

About Cifa

Cifa, a full-line manufacturer of concrete machinery and equipment, is the market leader in Italy, and one of the leading players worldwide. The company, which has belonged to the Chinese industrial group Zoomlion since 2008, is strongly internationalised, with sales and after-sales networks on all continents, and in addition to its range of reliable, high-quality products also offers customers financial support through Zoomlion Capital Financial Services.
