What's inside?

## Your daily knowledge support

With Dramix® Club, Bekaert is providing all the support to get more out of your steel fiber projects. Dramix® Club is an **interactive knowledge platform** that offers you **everything you need to know about steel fibers**, personalized to your specific industry and information needs.

It delivers a wealth of support information, expert advice, tips and ideas on a daily basis that will make working with steel fibers much easier.

Dramix® Club is the knowledge platform for:

- **Contractors**
- **Engineers/Designers**
- **Flooring specialists**
- **Investors/Owners**
- **Ready mix companies**
- **Precast companies**
- **Tunnelling specialists**

Design tools

## Design tools that boost your business

Dramix® Club offers **free access to Dramix® Drapro**, Bekaert's web-based **design calculation tool** that is helping designers and engineers to make the most accurate calculations for their steel fiber concrete flooring projects.

# Drapro, helping you dot the i's

Dramix® Drapro is an easy and straightforward tool that allows you to **calculate the required dosage of steel fibers** for your specific flooring project. It also supports you in choosing the appropriate concrete strength. Dramix® Drapro calculations for steel fiber concrete are based on yield line theory and ultimate limit states. This design method is accepted by ACI 360. Bekaert's calculation tool has been **developed together with engineers worldwide**, and has been used at testing laboratories and for thousands of steel fiber concrete projects worldwide over the past thirty years.

Product library

## Stay informed with our **product library**

Knowledge is power. An adage that is all the more true in today's fast paced construction industry. When joining Dramix® Club, you will receive all the **knowledge support** you need with the **extensive document database**, including a wealth of information on Dramix® products and on steel fiber technology in general.

## Product library

# Knowledge you can trust

Product brochures, technical specifications, recommendations, whitepapers ... the Dramix® Club includes tons of information that is **free to use** to back up your steel fiber concrete project. Bekaert's information platform is **always up to date** with the latest information on the most important certifications and quality assurance systems all over the world. The Dramix® Club's product library is maintained by dedicated Bekaert engineers who make sure that all content is up to academic standards.

Reference database

## A reference database full of inspiration

Dramix® steel fibers have found their way in concrete projects around the globe. But don't take our word for it. Just have a look in the Dramix® Club reference database for an **impressive list of Dramix® customers worldwide**. Get inspired by the wide variety of construction applications for which Dramix® has already worked wonders.

## Reference database

# A window to the world

The Dramix® Club reference database allows you to browse for **steel fiber projects around the world.**

Every reference project has a downloadable document providing you with more information on the type of construction, construction date and type of steel fibers used.

Coca-Cola Distribution Center

National Air and Space Museum

Pedestrian Tunnel - Dulles International airport Washington

Virginia Beach convention center

Speakers' corner

## Share your experience on **Speakers' corner**

Ever wondered how your colleagues and fellow construction professionals are experiencing the use of steel fiber concrete? In the Dramix® Club Speakers' corner, you'll hear it first hand.

## Speakers' corner

## Where **experts** meet

“Indispensable  
calculation software”

**Ed Eargle, PE Vice President,  
Concrete Advantages, LLC, Lexington, US**

“Bekaert’s Dramix® Club is a great resource for project examples, product information, specifications, but most of all for the Dramix® Drapro software. Through Bekaert’s advanced calculation tool and the comprehensive concrete design reports it is able to produce, we were able to help a customer realize significant cost savings, as well as improved concrete performance for a project for Lexington County in South Carolina.”

At the Dramix® Club Speakers' Corner you can learn from the experts, as they share their findings and useful information with you and your industry colleagues. Just browse through the Speakers' Corner's many text and video testimonials and learn how they put their steel fiber technology to use.

... and much more

## And there's **more...**

Don't forget to come back regularly, as Bekaert's Dramix® Club offers you an **ever growing source of information**. In addition to the topics described above, the Dramix® Club is continuously updated with new information, including:

- **Frequently asked questions**
- **Press information**
- **Industry events**
- **Useful links**
