

PRESS RELEASE

CIFA @ BAUMA 2016 - STAND FS.905/2

TRUCK MIXERS

For the truck mixers CIFA has divided up the range with the Heavy Duty "HD", Super Light "SL" SLX, ENERGYA "E8-E9" and Italia "RH-Y" ranges

HD15

At the 2016 Munich Bauma show CIFA introduces the HD15, a mixer truck that completes the HD (Heavy Duty) range dedicated to countries where the conditions of use are the harshest due to road conditions, temperatures, cycles of use, etc...

The HD15 is a mixer truck with a rated capacity of 15 cubic metres, the only one on the market that can be mounted on 4 axle chassis with particular characteristics (instead of the 5 axles usually used for mixer trucks with such a high capacity).

ENERGYA E9

CIFA returns to concrete workers and enthusiasts with ENERGYA E9, the hybrid mixer truck that looks to the environment with respect.

The peculiarity of this vehicle is that the drum is operated by an electric motor, powered by a latest generation intelligent lithium battery unit that recharges both during the road transportation phase and the loading phase or with the vehicle stopped. This system therefore guarantees up to 30% less consumption, greater attention to the environment thanks to the lower CO2 emissions and up to a 10 dB reduction in noise.

Energya E9 is the ideal solution for pouring in closed environments (for example in tunnels) where the use of an electric motor becomes indispensable, but also in city centres where keeping noise and pollution to a minimum is important to improve air quality.

With an innovative design and performance in the spirit of energy efficiency and environmental sustainability, the Energya truck mixer was designed in the E8 and E9 models, with respective load capacities of 8 and 9 m³, and it was field tested in Italy and Germany to prove the reliability of the technical solutions.

Information on CIFA

CIFA is a full-liner manufacturer of machinery and equipment for concrete work, leader in the Italian market and one of the major players on a global level. Part of the Chinese industrial group Zoomlion since 2008, CIFA is a highly international company with sales and support networks on every continent and able to offer customers, not only a range of reliable and quality products, but also financial support through Zoomlion Capital Financial Services.
